

Two thirty-something guys recording songs in a basement at night.

SNOWBALLS AND WATERFALLS - The first and most legendary Scissor Proof record. Before the guys had cellular phones. Recorded over the winter of 2003-04 using only a mono over-the-head computer microphone.

ONE BUSY NIGHT EP - A whimsical ditty about listening to night sounds from your bed with the window open during summer. Written and recorded in one week July 2005

DULL BOY JACK - In the February 2007, the boots recorded an improvisational electrical guitar album called **Dull Boy Jack** during an intense blizzard. Recording took 2 hours.

ANIMAL NAMES WITH REVERB... - Winter 2010-11, first cassette release, features a shitty keyboard, backwards electric guitar loops and actual songs!
